

# WHEN SHE IS HEALTHY, WE ARE HEALTHY

Magee-Womens Research Institute (MWRI) is the largest independent research institution in the U.S. dedicated solely to women's health and reproductive biology. We work in pursuit of a better, healthier world where women's health has the scientific prominence and cultural status it deserves.

## 7 AREAS OF RESEARCH

Reproductive Development | Pregnancy and Newborn Medicine | Infectious Diseases  
Gynecology | Reproductive Endocrinology and Infertility | Women's Cancers | Women's Wellness

30 YEAR CHAMPION OF  
SEX-SPECIFIC MEDICINE

380 SCIENTISTS  
RESEARCHERS & STAFF

57% OF STAFF ARE WOMEN

5 FLOORS OF FLEXIBLE  
LABORATORY SPACE

197 ACTIVE GRANTS

292 CONDITIONS

162K CLINICAL TRIAL  
PARTICIPANTS

#1 IN NIH FUNDING  
FOR REPRODUCTIVE  
HEALTH RESEARCH

PARTNERSHIPS IN  
20<sup>+</sup> COUNTRIES &  
5 CONTINENTS

## OUR MISSION

To challenge  
the status quo.

To close the gaps  
in women's health.

To change the way  
the world treats women.

# THIS IS LIFE CHANGING RESEARCH

## OUR GLOBAL COLLABORATION

To shape the future of womankind—and humankind—we partner with major institutions, medical centers, and universities all over the world.

### FINDING HOPE FOR WOMEN'S CANCERS

We're leading the way in the battle against breast and gynecological cancers.

### SOLVING INFERTILITY STRUGGLES

We're helping women with premature ovarian aging and young cancer patients who face infertility after chemotherapy, as well as individuals and families in the LGBTQ community, realize their dream of having a family.

### HELPING IN THE FIGHT AGAINST COVID-19

We've co-developed a nasal spray that could prevent COVID-19. It will be key to protecting frontline medical personnel and immunocompromised individuals.

### ADVANCING MATERNAL AND INFANT HEALTH

We've created the largest pregnancy database of its kind, the Steve N. Caritis Magee Obstetric Maternal & Infant Database and Biobank (MOMI), because better health data means better outcomes.

### IMPROVING QUALITY OF LIFE AS WOMEN AGE

We're treating pelvic floor disorders with timely diagnosis, surgery, physical therapy, and regenerative therapies.

### PREVENTING HIV/AIDS

We're testing a vaginal ring to protect both men and women from HIV.

### JOIN US AND IMPACT THE FUTURE OF WOMEN'S HEALTH

Your gift impacts the world-class research at Magee-Womens Research Institute, essential patient care services at UPMC Magee-Womens Hospital, and ongoing staff education at both institutions.

Every gift moves our research forward another mile, and improves the lives of women, families, and communities around the globe. To make a donation, or for more information, visit [MageeWomens.org](https://MageeWomens.org).

**WAYS TO GIVE:** Cash, Bequests and Beneficiary Designations, IRA Charitable Rollovers, Appreciated Stocks, Life Insurance.
